

June 14, 2017

Jay Lund, Chair  
And Board Members  
Delta Independent Science Board

**RE: URGENT Delta Independent Science Board public review draft, Final EIR/EIS for California WaterFix**

Dear Chair Lund and Board Members:

We are writing to concur with the June 14, 2017 letter transmitted by Bob Wright and Friends of the River. We are strong supporters of the necessary public processes and environmental protections that the National Environmental Policy Act and California Environmental Quality Act provide. We ask that you remove criticisms and calls for their amendment from your review.

Sincerely,

Kyle Jones  
Policy Advocate
